Accredited by NAAC with 'A' Grade & Recognized Institution under section 2(f) & 12(B) of UGC act, 1956)

Department of Computer Science and Engineering (Artificial Intelligence and Machine Learning)

A B.Tech in Artificial Intelligence & Machine Learning (AI & ML) is a four-year undergraduate engineering program focused on equipping students with the knowledge and skills to develop intelligent systems. This program delves into core computer science concepts alongside specialized AI and ML topics, including data science, machine learning algorithms, deep learning, computer vision, and robotics.

An AI/ML (Artificial Intelligence/Machine Learning) course provides training in the principles and practical applications of AI and ML technologies. These courses cover topics like machine learning algorithms, data analysis, deep learning, and potentially robotics and computer vision, preparing students for careers in AI/ML fields.
